## 'Positive Developments' Featured in FY15 Annual Financial Reports

Summaries Give Public a Look at the City's Fiscal Health

Two annual reports that city staff delivered to the Mayor and Council in December give the public a closer look at Rockville's financial health during the most recently completed fiscal year.

The city ended Fiscal Year 2015, which closed June 30, in good financial standing, City Manager Barbara B. Matthews wrote in the city's Popular Annual Financial Report (PAFR), a summary document highlighting the city's finances.

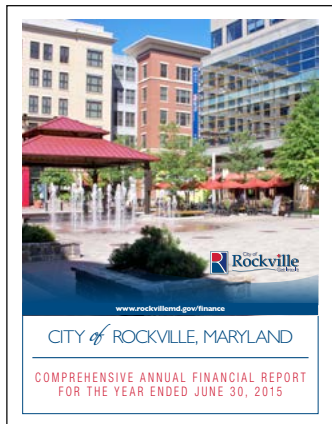

Two rating agencies recently reaffirmed the city's "triple A" bond rating and expressed confidence in the city's financial outlook. See the article on page 3 for more information.

"During FY 2015, Rockville's economy continued to see positive developments, including the construction of new buildings like the Choice Hotels headquarters and the Duball development near Town Center," Matthews wrote. "I am optimistic that we will continue to see positive changes in FY 2016, as this year's budget focuses on smart investments in our infrastructure, city facility improvements and information technology."

New construction means new tax revenue that can be invested to enhance city services. Investments prioritized by the Mayor and Council in the current, Fiscal Year 2016, budget included funding for the stabilization and rehabilitation of the King Farm Farmstead dairy barns, pedestrian safety initiatives and sidewalks, and vehicular bridge repair.

### The FY15 PAFR describes:

- The overall financial health of the city.
- Property taxes and utility rates, including how to read

- tax and utility bills.
- The city's general fund and enterprise funds.
- The city's total debt load.

The Mayor and Council spoke positively of the report and asked that hard copies of it be made available for community members to review. The city created the first PAFR in 2007 as a way to explain, in layman's terms, the information contained in Rockville's Comprehensive Annual Financial Report (CAFR).

The PAFR and CAFR are available at [www.rockvillemd.gov/financialreports](http://www.rockvillemd.gov/financialreports), or call the Finance Department at 240-314-8400. ## Submit Designs for the Rockville Storm Drain Mural Project

Artists with an interest in the environment have a unique opportunity to use their talents to help educate the public about the impact our collective actions have on local waterways and the Chesapeake Bay.

In celebration of Earth Day on Friday, April 22, the City of Rockville and VisArts are sponsoring the Rockville Storm Drain Mural Project.

The project will use original mural designs to reflect

topics related to how storm drains—and what goes into them—impact the health of local waterways. Themes could include water quality, streams, rivers, the Chesapeake Bay, native plants and wildlife, or pollution.

Submit mural ideas by Monday, March 14 to be considered to paint a Rockville storm drain. Find details and the application at <https://visarts.submittable.com> or call 240-314-8870. ❖

## City Continues Public Outreach on Bus Rapid Transit

The public will hear more about a rapid transit study in the coming months as city planners continue working on a county and state effort to improve traffic mobility in the area.

Rockville's bus rapid transit (BRT) study provides concepts and options for BRT integration in Rockville Town Center. It was prepared by outside consultants Environmental Resources Management, EDSA, and Sabra Wang and Associates, and was presented to the Mayor and Council in September.

In December, the Mayor and Council met with elected officials from Gaithersburg and Montgomery County to discuss the future of the BRT project, which includes rapid transit routes along Veirs Mill Road and Rockville Pike.

The Mayor and Council will hold a work session with

the study's consultants in February, on a date to be announced. A study update will be provided to the city's Traffic and Transportation Commission and Planning Commission.

The work session will be followed by education and outreach, including meetings with neighborhood groups, business associations, commercial/office building owners and other stakeholders, where the public will hear more about the BRT study and Town Center, and get a chance to share their thoughts.

Meeting dates will be posted at [www.rockvillemd.gov/brt](http://www.rockvillemd.gov/brt) as they are finalized. For more, including the consultants' study report, find the Dec. 14 Mayor and Council agenda at [www.rockvillemd.gov/AgendaCenter](http://www.rockvillemd.gov/AgendaCenter) or contact Andy Gunning at 240-314-8206 or [agunning@rockville.md.gov](mailto:agunning@rockville.md.gov).

## Mayor and Council Approve Statement of Support for Syrian Refugees

*Rockville's Human Rights Commission Urged the City to Show Public Support*

Recognizing Rockville as a "welcoming and inclusive community," the Mayor and Council voted unanimously on Monday, Dec. 7 to endorse Montgomery County's support for refugees from Syria and from around the world.

The full motion said: "The Mayor and Council affirms Rockville's role as a welcoming and inclusive community. We firmly believe that the diversity of our residents enhances our city. We fully support Montgomery County's promise to serve as a welcoming community for refugees, including those from Syria."

The Mayor and Council's symbolic statement was prompted by a letter from Rockville's Human Rights Commission (HRC) that urged the Mayor and Council "to affirm publicly that Rockville stands ready to welcome refugees fleeing Syria's civil war."

The HRC letter called on the city to "take a stand for tolerance and humanitarianism," that is counter to the position taken by some federal, state and municipal leaders nationwide, who, in recent months, said that Syrian refugees were not welcome in their communities.

"Rockville exemplifies the vibrancy that can be achieved when diversity is valued," the HRC letter said. "Many in our community are former refugees who have fled humanitarian crises themselves, and have made Rockville stronger and more dynamic through their cultural and economic contributions to our city."

Members of the HRC also testified before the Mayor and Council during the Community Forum portion of the Dec. 7 meeting. Video of their testimony, the Mayor and Council vote and discussion of the statement, and the meeting in its entirety, can be viewed by visiting [www.rockvillemd.gov/AgendaCenter](http://www.rockvillemd.gov/AgendaCenter) and selecting the television icon next to the Dec. 7 meeting listing.

The motion approved by the Mayor and Council echoed a Tuesday, Nov. 24 letter, signed by County Executive Isiah Leggett and the entire County Council, to the Director of the Office of Refugee Resettlement in the U.S. Department of Health and Human Services. The county's letter can be found at [www.montgomerycountymd.gov/council/news/pr/pr\\_details.html](http://www.montgomerycountymd.gov/council/news/pr/pr_details.html).

#### BUDGET AT A GLANCE:

### Rockville's 'Triple A' Bond Rating Reaffirmed

Two rating agencies recently reaffirmed the city's "triple A" bond rating and expressed confidence in the city's financial outlook.

The highest-possible rating, awarded by Moody's Investor Services and Standard & Poor's, allows Rockville to borrow money at the most favorable rates.

The rating agencies cited the city's conservative fiscal management, its strong policies and practices, ample reserve levels and low direct debt burden.

On Nov. 16, the city sold just over \$10 million in general obligation bonds to Janney Montgomery Scott LLC at a 2.79 percent interest rate. The bond proceeds will be used to finance water and sewer system improvements and refuse vehicle replacements.

### Mayor and Council to Discuss Purchasing Study

The Mayor and Council will discuss an outside consultant's study of the city's purchasing operation during their meeting at 7 p.m. on Monday, Feb. 1 at City Hall, 111 Maryland Ave.

The Mayor and Council commissioned the study in fall 2014. Calypus Consulting Group reviewed the city's overall purchasing operation and recommended a comprehensive strategy for improvements during a presentation on Oct. 19, 2015. ## Recycle the Holidays: Trees Make Great Mulch

Rockville offers a way to keep the holidays alive in your yard year-round. The city collects Christmas trees as part of its regular recycling collection. Trees are taken to the Montgomery County Recycling Center, where they become mulch. The mulch is available year-round and can be picked up, for free, at the center, at 16105 Frederick Road, next to the Shady Grove Processing Facility and Transfer Station.

Residents should place cut trees at the curb for pickup on regular recycling days after removing all ornaments, wires, stands and decorations, including tinsel. Trees should not be bagged.

Artificial trees cannot be recycled and should be dismantled and placed in the gray refuse cart for regular weekly collection. Artificial trees that are too large to fit in the cart can be collected by appointment as one of six bulk collections allowed per year, or taken to the transfer station.

For more information on recycling and refuse service, holiday tree collection, or to make a bulk collection appointment, visit [www.rockvillemd.gov/recycling-refuse](http://www.rockvillemd.gov/recycling-refuse) or call 240-314-8568. ## City Provides Advice for Radon Testing

With radon testing in the news, the city's chief of inspection services recently reviewed steps taken by the city to address radon in homes.

The City of Rockville has mandated passive radon gas controls in the city code for many years, said Ray O'Brocki, the city's chief of inspection services.

"Most, if not all, homes in Rockville should be equipped with radon mitigation systems," O'Brocki said. To learn how a typical radon mitigation system works, see the image above.

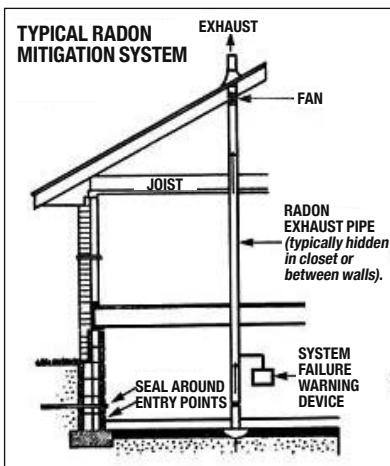

Radon is an invisible, odorless, tasteless, radioactive gas. While no immedi-

ate symptoms will signal its presence, exposure at high levels can cause cancer.

Testing is the only way to know a home's radon levels. Several associations and government agencies, including the Environmental

Protection Agency and the surgeon general, recommend radon testing in homes. Some home improvement stores sell radon test kits, or homeowners may want to hire a radon measurement professional to test their home.

Learn more at [www.epa.gov/radon](http://www.epa.gov/radon) or call the city's Inspection Services Division at 240-314-8240. ❖

## SNOW EMERGENCY: What It Means and What to Do to Help Rockville Declared Two Snow Emergencies Last Winter

As winter sets in, community members are reminded that significant, deep snow could lead the city manager to declare a snow emergency. If a snow emergency is declared, the city will announce the status through local and social media and Alert Rockville, via the city's website and on Rockville 11 (cable channel 11).

Snow emergencies were declared last winter on Feb. 16 and March 4.

The snow emergency ordinance states:

- The city manager may invoke snow emergency parking restrictions.
- The city may remove or impound cars improperly parked.
- Residents with driveways must park all vehicles there.
- Residents without driveways, or who have more vehicles than will fit in the driveway, may park on the even-numbered side of the street only.
- In courts or cul-de-sacs, where house numbers are not even on one side of

the street and odd on the other, parking is allowed only on the left side of the street when entering the cul-de-sac or court.

- No parking is allowed in the bulb of a cul-de-sac or court.
- A \$100 fine may be incurred for a snow emergency parking violation.

Once a snow emergency is declared, pay attention to Rockville 11, the city's website, email notices, Facebook and Twitter for updates. Connect through social media and email updates at [www.rockvillemd.gov/connections](http://www.rockvillemd.gov/connections). Sign up to receive emergency notifications through Alert Rockville at [www.rockvillemd.gov/alerts](http://www.rockvillemd.gov/alerts).

Be prepared for winter weather with shovels, salt or sand for sidewalks and driveways. Clear ice, snow and leaves from around fire hydrants and storm drains, and avoid shoveling snow into the street when possible. Following these tips will help the city return to normal operations as quickly as possible. ❖

**THE MAYOR AND COUNCIL JOINED THE COMMUNITY IN A RALLY TO END GUN VIOLENCE.** "Coming Together for Peace: A Rally to End Gun Violence," an effort initiated by Mayor Bridget Donnell Newton (top right), brought together elected officials from across Montgomery County on Dec. 20 at the Old Gray Courthouse in Town Center. It included music, candle lighting and speeches by victims' family members and law enforcement officials about lives lost to gun violence.

## Science Center to Take Science Café to the U.S. Pharmacopeial Convention

Rockville Science Center opens 2016 with a special Science Café, celebrating an exciting new partnership with the United States Pharmacopeial Convention (USP).

Michael Ackerman, a bioengineer from the National Library of Medicine, will discuss the Visible Human Project from 6:30-8 p.m. on Tuesday, Jan. 19, at the U.S. Pharmacopeial Convention Meeting Center, at 12601 Twinbrook Parkway.

Through the creation of public standards for medicine, food ingredients and dietary supplements, USP is striving to help improve public health. USP's Rockville location is its largest of eight locations around the world and has been part of the Rockville community for many decades. As a nonprofit organization driven by quality in support of public health, USP is committed to supporting scientific understanding and education in the region.

The Science Café's 2016 premiere follows a successful 2015 in which the Rockville Science Center moved closer to its goal of finding or building a permanent, regional science center in the area. The center engaged the community in a series of brainstorming sessions and advanced efforts on potential sites.

The nonprofit has hosted monthly Science Cafés since 2008. Science Cafés are open to everyone and feature an engaging, interactive conversation with an expert in a field of science on a particular topic of interest.

For more information on this month's speaker, or to RSVP, visit <http://rockvillesciencecenter.org/event/science-cafe>.

## City's Senior Needs Study Wants to Hear from Seniors in Survey

The city invites Rockville seniors to take a survey of senior needs to provide feedback on what's working and what could be improved regarding services for seniors.

The Mayor and Council funded the Senior Needs Assessment and Gap Analysis Study as a priority in the current budget. It is expected to be completed in March. Seniors can fill out a paper survey at the front desk at the Rockville Senior Center, 1150 Carnation Drive, or take it online at [www.rockvillemd.gov/seniorstudy](http://www.rockvillemd.gov/seniorstudy). The survey will be open through January.

Rockville's senior population is growing and changing rapidly and is expected to increase faster than any other age group in Rockville. The city and other service providers face the challenge of maintaining existing services and developing and funding new programs and services to address the needs of a demographically diverse population.

The study seeks to determine if programs and services provided by the city and other government, private and nonprofit partners are expected to meet the needs of Rockville seniors.

To learn how you or your organization can be involved in the study, contact Terri Hilton, the city's senior services manager, at 240-314-8802 or [thilton@rockvillemd.gov](mailto:thilton@rockvillemd.gov).

## IN BRIEF

### Historic Properties Tax Credits Available

County, state and federal tax credits are available for qualified Rockville properties, such as those in designated historic districts or listed in the National Register of Historic Places.

#### Montgomery County Credits

The city participates in the county's preservation tax credit program to assist owners of historic properties with their exterior maintenance expenses. Structural repairs and pruning of trees away from a historic structure may also be included.

Ordinary maintenance, defined as work undertaken to repair existing building elements with the same materials and design, does not require prior HDC approval. All other exterior work must have prior HDC approval to be eligible. The HDC reviews tax credit applications and makes a recommendation to the county to approve or disallow the proposed tax credit.

If approved, your property tax obligation for 2016 will be reduced by 25 percent of the approved expenditures. Applications for the county credits are due by Friday, April 1.

#### State of Maryland Credits

Certain residential and commercial properties may qualify for tax credits on interior and exterior work, with 20 percent of eligible expenditures refunded from Maryland state income taxes.

#### Federal Credits

Owners of income-producing properties listed on the National Register or located in a National Register District may be eligible for a 20 percent federal tax credit.

To learn more, visit [www.rockvillemd.gov/historic](http://www.rockvillemd.gov/historic) or contact the city's historic preservation planner, Sheila Bashiri, at 240-314-8236 or [sbashiri@rockvillemd.gov](mailto:sbashiri@rockvillemd.gov).

## Celebrate Lunar New Year on Feb. 13

Rockville's Celebration Features Performances, Exhibits and Food at F. Scott Fitzgerald Theatre

Celebrate Rockville's Asian cultures with performances, exhibits and food, as the city's Lunar New Year celebration returns to the F. Scott Fitzgerald Theatre on Saturday, Feb. 13, from 10 a.m.-2 p.m.

The free celebration, at the theater at Rockville Civic Center Park, 603 Edmonston Drive, will offer a chance to experience Rockville's diverse community through multigenerational performances, exhibits featuring traditional arts and crafts, demonstrations and samples of Asian cuisine.

Organized by Rockville's Asian Pacific American

Task Force, the celebration will mark the beginning of the year 4714, the "Year of the Monkey," on the Chinese Zodiac calendar. One in three Rockville residents were born outside the United States and 54 percent of the city's foreign-born population was born in Asia, according to the city's planning department.
